Office Action Summary

Art Unit: 2174

DETAILED ACTION

1. This application has been examined.
2. The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless -

(e) the invention was described in-

- (1) an application for patent, published under section 122(b), by another filed in the United States before the invention by the applicant for patent, except that an international application filed under the treaty defined in section 351(a) shall have the effect under this subsection of a national application published under section 122(b) only if the international application designating the United States was published under Article 21(2)(a) of such treaty in the English language; or
- (2) a patent granted on an application for patent by another filed in the United States before the invention by the applicant for patent, except that a patent shall not be deemed filed in the United States for the purposes of this subsection based on the filing of an international application filed under the treaty defined in section 351(a).

3. Claims 1-18 are rejected under 35 U.S.C. 102(e) as being anticipated by Rich et al (5918228).
4. Regarding claim 1, Rich et al show the method of effecting management tasks in a distributed computing environment cell having at least one web client with a browser connected to a web server (Figure 1, 3, column 1 lines 43-46, column 2 lines 12-25 and 35-40), including a security service (column 2 lines 25-30), including: authenticating a user of the web client by returning a credential from the web service (column 2 lines 35-43, column 4 lines 43-50, column

5 lines 25-35), responsive to user actions, displaying a plurality of web pages in the browser from which the authenticated user manages the distributed environment cell and managing it accordingly (column 4 lines 55-65, column 5 lines 40-68, column 6 lines 1-15).

5. Regarding claim 2, an administration main menu web page is displayed upon authentication (column 6 lines 7-19).

6. Regarding claim 3, the web page includes hypertext links associated with management command options (column 8 lines 18-45, and inherent within web browsers to use hypertext links).

7. Regarding claim 4, the links are selected (inherent in a browser).

8. Regarding claim 5, a fast path web page may be used which allows a user to perform multiple administrative tasks with a single action (column 7 lines 9-20).

9. Regarding claim 6, a server status web page may be called to view server status (column 8 lines 40-55) .

10. Claims 7-18 show the same features as above and are rejected for the same reasons.
